An Afternoon of Songwriters, Stars & Stories Benefiting Friends of Radnor Lake

More than a concert, **Radnor in the Round** is a signature fundraiser that brings together acclaimed singer-songwriters, conservation supporters, and the community for an unforgettable afternoon **benefiting Friends of Radnor Lake**. Now in its seventh year, the event has become one of Middle Tennessee's most distinctive outdoor music experiences.

Hosted by Phil Vassar and friends, the concert unfolds against the spectacular backdrop of **Vanderbilt Dyer Observatory** overlooking the hills surrounding **Radnor Lake State Natural Area**. Guests gather with lawn chairs, blankets, picnic dinners, and beverages to enjoy an intimate performance where music, nature, and community come together in support of one of Tennessee's most treasured natural places.

Every sponsorship supports the **mission of Friends of Radnor Lake to protect, preserve, and promote Radnor Lake through conservation, environmental education, and Park stewardship**. Together, we are helping ensure this remarkable natural area continues to inspire, educate, and serve future generations.

With more than two million visitors annually, Radnor Lake is an essential part of our region's quality of life. Sponsoring Radnor in the Round aligns your organization with one of Nashville's most respected conservation organizations while connecting your brand with an engaged audience that values community, the outdoors, and meaningful local experiences.

Friends of Radnor Lake engages supporters year-round through a growing digital audience of more than **15.8K Instagram and 9.6K Facebook followers**. Sponsorship recognition extends across event marketing, digital communications, and on-site visibility, with enhanced promotional opportunities available at select sponsorship levels, including in-park signage during the event promotion period.
